Skill Level of Classes

All classes are essentially beginners/intermediate based, however, it is strongly recommended that before attempting the necklace class (which is the longest class and the largest project) that you attend one or ideally both of the other classes prior (earring or bracelet class) in order to feel confident with the skills and tools that you would have already begun building upon and learning to master.

Tuition Cost

Earring: \$40 + materials

Bracelet: \$35 + materials

Necklace: \$45 + materials

All tools provided on the night to complete your project. 10% discount on tools purchased on the night, should you wish to take them home with you. NB: Cost of materials is entirely up to you, as you choose what you use.

A Little Bit About the Classes ...

With the design and skill expertise and experience of 'The Bead Masters', they will help you design your individual masterpiece, and guide you through how to create your own personal and unique creation. You get to choose the style, the colours and complexity of the piece.

We are here to guide and instruct you on technique and the 3 principles of design: *colour, composition and texture.*

Classes with 'The Bead Master' are project based i.e. you design and complete a pair of earrings in an Earring Class, you go home with your finished bracelet of your choice in the Bracelet class and your own unique necklace custom designed and made by you in a Necklace Class.

So even if you don't classify yourself as someone who is particularly creative or naturally talented, you will see how with proper guidance and instruction, & working with beautiful handpicked products, how you can amaze yourself by how beautiful & original your finished piece will be. It truly is satisfying & a very rewarding skill to learn!
